## eDermaStamp / Dermaroller Treatment Consent Form

FOR COLLAGEN INDUCTION + SCAR REDUCTION THERAPY

Name:

Phone:

E-Mail:

I am requesting a eDermaStamp: Collagen Induction/Scar Reduction treatment of the skin for fine wrinkles, acne scarring or skin changes associated with actinic damage or aging, and voluntarily by consent authorize this procedure. The preferred areas to be treated are:

I understand that eDermaStamp Treatment utilizes fine micro-needles to puncture into the skin surface. As a consequence, the repair process releases numerous growth and healing factors that stimulate new collagen to be deposited under the skin surface. The repair process will actually extend over a twelve to sixteen-week period after treatment. I also understand that I may require a series of treatments to achieve the maximum cosmetic result. The procedure and complications have been explained to me and I have had the opportunity to have my questions answered.

I have been advised that the object of the procedure I have requested is improvement in appearance, not perfection. It is possible for imperfections to persist, and that the result might not live up to my expectations or goals. I fully understand that the service provider cannot guarantee results. I acknowledge that no written or implied verbal guarantee, warranty, or assurance has been made to me regarding the outcome of the procedure that I herein requested and authorized. I also understand the limitations of this procedure.

I understand the complications of the eDermaStamp Treatment to be as follows: Please initial.

Erythema: The skin may remain red for generally 24 hours up to four days after eDermaStamp treatment. As the skin heals the erythema will resolve.

I understand bruising may occur as a result of treatment.

Hyper-pigmentation: A small number of patients may experience a hyper-pigmentation of the skin surface (especially if the skin is exposed to the sun).

I understand that in order to avoid possible adverse reactions I need to refrain from any intensive sun exposure and/or solarium for a period of 2 weeks. I shall use a sun block with a protection factor of 15 or higher.

I understand that in order avoid possible adverse reactions I also need to refrain from any exercise following the treatment for a period of 24 hours.

I shall follow the prescribed post procedure skin care to avoid infection.

I understand that the post-treatment care regime is done with designated Dermaroller products which were specifically formulated for the treatment.

I understand that I may require additional treatments to achieve maximum results and that some imperfections are not amenable to an eDermaStamp treatment.

I understand that prior to treatment I must provide the treating clinician with any information regarding my former skin conditions and illnesses, including personal history of herpes simplex.

I understand that patients with a history of herpes simplex (cold sores) may experience a flare up of the disease.

I understand that infection is a rare possibility

I hereby give permission for photographs of the intended treatment site for diagnostic purposes and to enhance the medical record. I agree that these photographs will remain the clinic's property. I further authorize to use these photographs for marketing purposes. It is specifically understood that in any such publication or use, I shall not be identifiable.

Initial Here

By providing my initials here, I certify that I understand and fully agree to the above terms.

I agree to follow the instructions given to me by the clinic to the best of my ability before, during, and after the procedure. I understand that patient responsibility and proper performance of the post-treatment care are critical to the success of the treatment. I have thoroughly read and understand the instructions and reviewed them with the treatment provider. I acknowledge that I have read and filled out the patient registration and medical history form fully and correctly to the best of my knowledge, and that the information that I have supplied is correct.
